APPLICATION REQUIREMENTS

Completed application form, Two (2) sets of design drawings and stormwater calculations with detail of all works for which permits are requested (along with one electronic media copy), a signed and sealed boundary survey of the site for which permit is requested.

There will be no fee for the first resubmittal that is submitted in response to the District's first Request for Additional Information (RAI). All subsequent re-submittal fees will be equal to the original permit fee (not including any additional per linear foot costs).

Additional fees may be required upon MTWCD review of plans.

\ 0 1 1 3	maintain the permitted works. Any erosion to or shoaling in the canal or flooding due to the permitted works, or failure thereof, shall be the responsibility of the OWNER to remove, repair or correct at no cost to the District. The OWNER agrees to hold and save the District and its successors harmless from any and a damages, claims, or liabilities that may arise from permit issuance. The OWNER further agrees to alter or remove the authorized use or construction as applied for, if required, in the interest of future drainage requirements of the District. As Applicant, I understand that upon completion of work, submittal of a Notice of Completion along with Record Drawings is required for final acceptance of work. Failure to submit for final acceptance of work will affect issuance of future permits. Responsibility for ownership, operation and maintenance may be transferred to another entity acceptable to the District upon receipt of transfer application and fee, signed by the OWNER and the new entity that said transfer is requested.
